JOYCEeasy Full Face

JOYCEeasy next Full Face

Material of mask parts	Wash by hand in warm water with mild detergent**	Dishwasher up to 70 °C
Plastic	daily	weekly
Elbow with anti-asphyxia valve	daily	–
Silicone	daily	weekly
Textile	weekly	–

### Basic instructions:

These abridged instructions do not replace the user manuals for individual products.

\* Useful life depends on cleaning and on the detergents used, on the amount of time worn daily, on therapy pressure, and on individual secretion of sweat. Using the second mask cushion (included as an option) does not extend useful life.

\*\* We recommend using a special cleaner, such as Löwosan, for daily cleaning.
